

Streamline Your Accounting with End-to-End Automation

IKH

CRAFTING
EMPOWERING
TECHNOLOGIES

Manual invoice handling is time-consuming, prone to errors, and costly. With IKH's innovative solutions powered by IBM RPA and Datacap, your accounting process becomes faster, more accurate, and seamless.

1. Invoice Receipt

Receive invoices from multiple channels.

2. Data Extraction (OCR)

Capture and extract data with precision.

3. Automated Data Entry

Automated transfer of extracted data into your ERP system.

4. Approval & Workflow

Automated status updates and notifications.

5. Real-time Integration with ERP

Eliminate manual data entry, reduce processing time, and ensure accuracy.

Business Benefits at a Glance:

Save Time & Boost Efficiency

Minimize Errors & Improve Accuracy
